

LP600™ Low-Profile Wheel Load Scales

Low-Profile, Light-Weight, Digital Wheel Load Scales

Maximize Legal Payloads with Concern for Violations and Reduce Maintenance due to Overload Stress on Equipment.

Weighing a mere 51lbs (23kgs) with a profile of 1.5" (38mm), the LP600™ Low-Profile Wheel Load Scale weighs loads up to 30,000lbs (15,000kgs) with an accuracy of $\pm 1\%$. The scale is fully battery operated and only requires infrequent recharging from a 12, 110, or 220 volt power source and features a large 1" (25mm) LCD display.

LP600™ scales will meet a multitude of wheel configurations and view weight data in a variety of indicator options. With Fully Integrated RFX™ Wireless Weighing Technology featuring encryption for secure wireless communication, the LP600™ Low-Profile Wheel Load Scale will improve efficiency & convenience cost-effectively & safely.

Intercomp
advanced weighing technology . . . by any measure

RFX™ Wireless Weighing - Improve Efficiency & Convenience Cost-Effectively & Safely

- RFX™ Wireless Weighing Technology Maintains Integrity & Safety of Data
- Up to 300ft (90m) Line of Sight

LP600™ Low-Profile Wheel Load Scales

- Accuracy of $\pm 1\%$ of Reading
- Available in Capacities to 30,000lbs (15,000kgs)
- NTEP/OIML Approved Models Available
- Large, Easy-to-Read, Display
- Standard AA Rechargeable Batteries Last up to 300 Hours in Scales
- Available for Purchase Individually or as a Scale System which Includes: Wireless Scales (2, 4 or 6 Scale Configurations), Handheld RFX™ Wireless Indicator, Totalizing Cable, Universal Charging Cable & Transport/Storage Case

RFX™ Wireless Handheld Weighing Indicator

Intercomp's RFX™ Wireless Weighing Indicator eliminates the need for cables.

- Operate Up to 6 Scales
- Control Scale Functions Directly from the Indicator
- View Individual Weight, Axle Accumulative Total & Center of Balance
